Reliable Connections™

Important Notice

Based on extensive tests, Mueller Co. recommends that 4 full threads of engagement are necessary to achieve a high degree of success in obtaining leak free connections in metal pipes. Recognizing that many factors affect thread leakage, less thread engagement should only be used according to the specific recommendation of the pipe manufacturers and following their instructions.

Contact Mueller Co. for information concerning products for use on pipe having wall thickness that does not allow for 4 full threads.

Phone: (800) 423-1323

By deviating from the above listed instructions, you will void any product warranty and release Mueller Co. and its affiliated entities from any and all liability associated with the installation or use of this product.
