

MUELLER

A-2361 14"- 66" RESILIENT WEDGE GATE VALVE

Effortless Seal, Reliable Connection

Mueller's Resilient Wedge Gate Valve sets the standard in performance within the potable water industry. With sizes expanding across the range of 14"- 66", Mueller's valves maintain wear resistance with reduced operating torque and extra-long polymer covered wedge guides for smooth operation. The wedge is energized under flow conditions, assisting to create a leak tight seal. This avoids crushing the rubber and reduces stress on the stem.

OVERVIEW

- > ASTM 536 Grade 70-50-05 or 65-45-12 Ductile Iron.
- > NSF 61 &/or 372, ANSI/AWWA C515, ISO9001
- > AWWA 250psi Pressure rating
- > Fully Encapsulated Wedge.
- > End Connections:
 - 14"-16": Slip x Slip, Slip x FL
 - 14"-48", 60": MJxMJ, MJxFL
 - 14"-66": FLxFL

KEY BENEFITS

- > Adjustable stainless steel sliding track aids in lifetime operability and reduced torque
- > Improved Horizontal function
- > Improved Disc Design for better sealing and functionality
- > Integrated Cast lifting points

KEY FEATURES

- > Sizes 60"-66" feature stainless steel guide tracks and bronze caps for improved wear resistance and actuation.
- > Bronze Key to protect gearing on 60"-66" in case of overtightening.
- > Bypasses and Flush Ports available.
- > 316 Stainless Steel Fasteners standard
